Sugarloaf STEM Blog

This week we had to make some decisions. Luckily we had help, we used decision trees to help us. In the junior grades we learned about how to use them to plan our weekends and what to do after school. In the senior grades we explored how to use them to program robots and make decisions about our health! We then moved on to Canva and learned how to plan and manipulate the data on them to create meaningful decision matrices for our lives.

DESIGN A BRICK!

Olivia and Carmen are putting their Change Maker Project into action and are excited to organise a **Brick Fundraiser for MKPS!**

Each MKPS family will have the opportunity to purchase a **personalised brick**, which will be used to create a beautiful pathway around the OSHC garden area at the front of the school.

This is a wonderful opportunity to leave your own special mark on MKPS. Your brick could feature your **family name, children's names, dates of attendance** or another meaningful message to commemorate your connection with our school.

We will also be opening the fundraiser to the **wider local community**, providing an opportunity for past families, former students, community members and anyone who would like to support MKPS to purchase a brick and become part of this lasting project.

The completed pathway will not only enhance our OSHC garden area but will also create a lasting reminder of the families and community members who have been part of the MKPS journey.

Help us build something special – one brick at a time!
